

## MANIFESTO ISSUED BY MEXICAN REBELS

Gen. Geronimo Trevino Suggested as Provisional President of the Republic.

### PLANS OF ZAPATISTAS

Promises Made to Insurgents

That the Heads of the Rich Shall Fall.

MEXICO CITY, Nov. 10.—General Trevino, who was recently retired from the army at his own request, is suggested as provisional president of Mexico in a new revolutionary manifesto which has just reached the capital.

The document is signed by Guadalupe de la Llave, colonel of regulars, who also joined the insurrection. Benjamin Rodriguez and P. R. Brindley, the latter with Trevino's army until he incurred Trevino's displeasure by taking Emilio Vasquez Gomez from San Antonio to Juarez.

The manifesto is dated Puebla, the day after the capture of General Felix Diaz. The name of Mexico City has been deleted from the manifesto, and it is not believed General Trevino is interested.

Another revolutionary document obtained by the police from Zapatista prisoners was made public today.

### Will Imitate French.

It appears to reveal the intention of the Zapatistas to imitate the French revolution. The document is addressed to the heads of the rich and promises that they will be executed.

Notwithstanding the failure of the Zapatistas to capture Mexico City, the government is planning to resume the determination to capture the city. General Robles, a few months ago with some success, General Robles will be left in the Zapata district instead of being ordered to return north to resume the campaign against the Orozco rebels.

### Terrible Outrages.

The defeat administered by General Huerta at Cuernavaca appears to have incited the Zapatistas to more horrible outrages.

Wandering bands are committing murder and arson. A freight train was stopped near Puebla by a band last night. The conductor was stabbed to death, the engineer was killed and the locomotive and the door closed.

Reports are current of a new plot, a well-known army officer having had a conference with the Orozco adherents with the object of organizing all factions of the rebels.

The government has been unable to locate General Higinio Aguilar, but asserts that he has no following worth mentioning.

A special dispatch to the Imperial says that General Aguilar slept last night at the San Gerardo ranch in the southern part of the state of Puebla and that he has several hundred men with him.

### GUNMEN ARE CERTAIN THEY WILL GO FREE

NEW YORK, Nov. 10.—The trial of the four gunmen charged with murdering Herman Rosenthal, a Russian, in the case of Charles Becker, the convicted ex-tenor, will be resumed tomorrow.

The trial of the four accused gangsters would lead guilty to a charge of murder in the second degree in order to escape the death penalty.

The latest statement given by the four:

Benjamin Frank, Chicago, speaking for himself and the others, said:

"We would not plead guilty to petty larceny—that's how sure we are of getting out. We are going on trial for murder in the first degree and they are not going to get us on that. We're a happy little family and intend to live or die together. Should we get a square deal, there's nothing to it but live happily ever after."

### ANARCHIST PLOT TO POISON UNEARTHED

GENEVA, Nov. 10.—An alleged anarchist plot to poison property owners in Milan in revenge for anti-anarchist activities has been unearthed by the police of Milan as the result of a number of mysterious deaths there.

The victims all succumbed to a powerful poison which was subsequently discovered, was contained in letters sent by post from Switzerland, purporting to incite a harmless epidemic for the cure of a common malady.

Investigation showed that the letters were mailed from Lugano, and an Italian chemist known to be the associate of an anarchist was arrested in that city.

Six other Italians have been arrested in Switzerland, including Luigi Dainoff, formerly editor of an anarchist paper. Application was taken into custody at Geneva this morning.

### Will Re-elect Gompers.

ROCHESTER, N. Y., Nov. 10.—The annual convention of the United Brotherhood of Carpenters and Joiners of America, which will convene here tomorrow, will be harmonious.

It appears that the consensus of opinion among the delegates here tonight that Mr. Gompers will be re-elected president of the federation.

## CHOLERA AIDS TO HORROR OF THE WAR IN BALKANS

(Continued from Page One.)

### BULGARS PUSHING THEIR ATTACK HOME

Turks are now using aeroplanes. The Vah has gone into the fighting lines, and an attack by the Bulgarians on Friday night was repulsed with heavy losses.

### VIENNA, Nov. 10.—The correspondent of the Reichpost at Bulgarian headquarters says:

The Bulgarian attack on the Tchatalja lines is progressing successfully. Further points on the Turkish outposts lines have been captured.

The Bulgarians are attacking with such force that the Bulgarians will reach the gates of Constantinople simultaneously with the fleeing Turkish troops. By immediate occupation of the capital they will prevent diplomatic interference and a massacre.

The Reichpost contradicts the report that common action at Belgrade by the Austrian, German and Italian ministers is intended. It says Austria will continue to support the Serbians.

The monarch is anxious only to preserve Albanian freedom, and in this has the support of the Serbians. The monarch will not fortify her national harbor gives little security, and adds the paper, Serbia's passage through Albania cannot be conceded.

The Socialist Labor party held a monster mass meeting today to protest against the war.

### GREAT POWERS ARE NEARLY IN ACCORD

PARIS, Nov. 10.—The great powers, Great Britain, France and Russia, constituting the triple entente, and Germany, Austria and Italy, the quadruple entente, are believed to be at the point of reaching an agreement to prevent the Bulgarian army from occupying Constantinople.

The six governments find themselves in accord on the principle, and active exchanges are in progress as to the means to be taken to bring about this result.

One suggestion is a collective provisional occupation of Constantinople by the six powers, with the consent of Turkey, under the assumption that such action was necessary to protect the subjects of the respective nations and to maintain order.

The Bulgarian government appears already to have indicated that it has no intention of trying to hold Constantinople, and that it would accept the Turkish capital until peace had been arranged. This, it is stated, is not satisfactory to the powers. It is pointed out that such occupation might continue indefinitely and certainly during the long discussion preceding a peace settlement.

Investigation showed that the letters were mailed from Lugano, and an Italian chemist known to be the associate of an anarchist was arrested in that city.

Six other Italians have been arrested in Switzerland, including Luigi Dainoff, formerly editor of an anarchist paper. Application was taken into custody at Geneva this morning.

### OVER 150,000 MEN PUT OUT OF ACTION

LONDON, Nov. 10.—The Bulgarian attack on the Tchatalja lines goes on unrelentingly. According to a correspondent at the front, further Turkish positions have been captured but their location has not been indicated in accordance with the inviolable Bulgarian promise never to give information to the enemy.

There is another unconfirmed report that Monastir has been captured. This direct negotiations with the allies, but it will become master of the port; Serbia sheds her blood for her own interests, not for others.

### CONSIDER OUTLOOK IS MORE FAVORABLE

LONDON, Nov. 10.—The Constantinople correspondents of the London papers generally consider the outlook more favorable than it was some time during the last week.

Several leading British residents of Constantinople have sent a statement to the London press, protesting against the unwarrantably alarming statements made in the newspapers regarding great dangers to the city.

The protest continues: "These reports are greatly exaggerated. The government measures are quite satisfactory and the powers, including Germany, will be able to convince Austria-Hungary that Serbia, with an outlet on the Adriatic, will not be more dangerous to her than without such an outlet."

Serbia desires peaceful economic development. Political leaders say there is no need to fear the outbreak of the war, which will become master of the port; Serbia sheds her blood for her own interests, not for others.

The decision has been reached that the gulf and government shall remain in the capital even if the troops of the allies enter. The heir apparent and the other princes have expressed strong opinions that it would be shameful and exceedingly dangerous to abandon Constantinople and retreat to Brest.

The opinion is gaining ground that the differences of the powers may bring about an European war, by which Turkey might profit and might re-establish her position in the Balkans. The number of new levies from the general confederation breaks out. Several high officials at Tchatalja demand that new troops from the Black Sea and also the former army of Thrace be given a chance of fight.

The Standard's correspondent says some of the English and American residents

### AUSTRIA AND ITALY NOT IN FULL ACCORD

PARIS, Nov. 11.—According to a Sofia dispatch to the Journal des pouvoirs, with the exception of Austria, have presented a joint note to the Bulgarian government offering mediation. The government accepted the note, but has yet made no reply, and it is understood, will decline the offer.

Dispatches received Sunday say a great battle is imminent, just before the end of the month, and that the Bulgarian government will do nothing until that has been decided. It is pointed out that the army cannot be left to spend the winter in the bleak exposed plains and must either enter Constantinople or be provided with winter quarters elsewhere with a full guarantee from the powers that the conquered territory will remain undisputed.

Other special dispatches from Sofia say the Bulgarian army has entered the city of Constantinople in a considered indisposition to prevent fresh allies from Asia Minor entering and this is the only way to stop the war.

Some dispatches claim that an agreement is far from being completed with Italy and Italy over the Balkan situation. Italy, it is asserted, will never admit that Austria should have economic and customs privileges in the Balkans and it is pointed out that Italy has not the same interest as Austria in shutting out Serbia from the Adriatic. It is understood that these points and several others stand in the way of the two powers agreeing on a common programme.

The newspaper, Embros, says that now the army is master of Saloniki. It will turn its attention to the city of Saloniki. The full division of the Greek army, headed by Crown Prince Constantine, entered the city of Saloniki.

The mayor of Athens has addressed a telegram of felicitation to the crown prince and the commanders of the army. Following a celebration today, the mayor, at the head of a monster procession, marched to the war office and expressed his confidence in the Greek army. Premier Venizelos replied that Greece was carrying out a new pathway leading to a glorious future.
